

# CANINE STRUCTURE & FUNCTION

## SEMINAR BY LIN GELBMANN

As founder of the Rehab Program at the University of Minnesota College of Veterinary Medicine, Lin Gelbmann has 40+ years of experience training and evaluating the structure of dogs. Lin will demonstrate her method for evaluating a dog's structure and developing a customized training program using several dogs as examples. In this seminar, you will learn:

- How to evaluate the structure of dogs
- How structure affects compensation, performance and susceptibility to injury
- How to develop a strengthening program to prevent injury and improve performance
- How to warm up and cool down your dog
- How to avoid overtraining injuries
- And more...
